

## Supplementary Material

### Supplementary Figure 1

**Supplementary Figure 1. Expression levels of ST2 in follicular, marginal zone and B1 B cells in the spleen of pregnant and non-pregnant mice.** Box and Whisker plots showing median of fluorescence intensity (MFI) for ST2 in FO, MZ and B1 B cells at day 12 (12 dpp; n=6, n=7 and n=7 respectively), 14 (14dpp; n=10, n=11 and n=11 respectively) and 16 (16 dpp; n=7, n=8 and n=7 respectively) of pregnancy as well as in non-pregnant control females (NP; n=8, n=11 and n=11 respectively). Data are expressed as Box and Whisker plots showing median. \*\*\*P<0.001 as analyzed by ANOVA followed by Tukey's multiple comparisons test.
